Experienced fullstack developer focused on creating beautiful and accessibile digital experiences

Relevant Experience

Web Developer @ Core Education PBC   Jan 2023 — Aug 2024

- Led the design and development of a web application using Django, adding advanced data handling and submission features.
- Worked closely with colleges to create tools and websites that make the student enrollment process easier.
- Set up secure payment systems, focusing on Stripe for smooth transactions.
- Used different CMS platforms like WordPress, Cascade, LeadSquared, and TerminalFour to build and manage university websites.
- Worked with teams of designers, salespeople, and project managers to create web solutions that met company goals and client needs.
- Took part in brainstorming sessions and team meetings, giving ideas and feedback to improve projects.
- Acted as project lead, working with multiple universities to fix, maintain, and update their sites, ensuring they run smoothly.
- Partnered with the sales team to match products with client needs, improving customer satisfaction.
- Used the Slate platform to create and manage student portals for universities, making them easier to use.
- Adapted to different technology setups at various universities, ensuring flexible and up-to-date web solutions.

Education

Fullstack Academy   Graduated Aug 2022

Dove deep into full stack development at Fullstack Academy, tackling both solo projects and team exercises, all with a strong focus on React.
